Independent auditor's report on review of condensed interim financial statements

To the Unitholders of Al Rajhi Sukuk Fund

Introduction

We have reviewed the accompanying 30 June 2023 condensed interim financial statements of **Al Rajhi Sukuk Fund** (the "Fund"), managed by Al Rajhi Capital Company (the "Fund Manager"), which comprises:

- the condensed statement of financial position as at 30 June 2023;
- the condensed statement of comprehensive income for the six-month period ended 30 June 2023;
- the condensed statement of changes in net assets (equity) attributable to the Unitholders for the six-month period ended 30 June 2023;
- the condensed statement of cash flows for the six-month period ended 30 June 2023; and
- the notes to the condensed interim financial statements.

The Fund Manager is responsible for the preparation and presentation of these condensed interim financial statements in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia and to comply with the applicable provisions of the Investment Funds Regulations issued by Capital Market Authority and the Fund's Terms and Conditions. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2023 condensed interim financial statements of **Al Rajhi Sukuk Fund** are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia.

13. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

Valuation models

The fair values of financial instruments that are traded in active markets are based on prices obtained directly from an exchange on which the instruments are traded or obtained from a broker that provides an unadjusted quoted price from an active market for identical instruments.

For financial instruments that trade infrequently and have little price transparency, fair value is less objective and requires varying degrees of judgment depending on liquidity, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

(Managed by Al Rajhi Capital Company)

Notes to the Condensed Interim Financial Statements (Unaudited)

For the six-month period ended 30 June 2023 (Amounts in SAR)

13. FAIR VALUE MEASUREMENT (CONTINUED)

The Fund measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments

Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

The Fund determined fair value of securities that are traded on stock exchange at their last reported prices. To the extent that securities are actively traded and valuation adjustments are not applied, they are categorized in level 1 of the fair value hierarchy. Therefore, the Fund's investment in listed sukuk measured at FVTPL have been categorized in level 1 of the fair value hierarchy.

The Fund determined fair value of investments in open-ended mutual funds measured at FVTPL using unadjusted net assets value. Moreover, the fair value of investments in unlisted sukuk measured at FVTPL is determined based on the similar security external price. Therefore, the Fund classified them as level 2 of the fair value hierarchy.

Fair value hierarchy - Financial instruments measured at fair value

The table below analyses financial instruments measured at fair value at the reporting date by the level in the fair value hierarchy into which the fair value measurement is categorized. The amounts are based on the values recognised in the statement of financial position. All below fair value measurements are recurring.

13. FAIR VALUE MEASUREMENT (CONTINUED)

Other financial instruments such as cash and cash equivalents, accrued special commission income, management fee payable and accrued expenses are short-term financial assets and financial liabilities whose carrying amounts are approximate to their fair value, because of the short-term nature and high credit quality of counterparties. Cash and cash equivalents are classified under level 1, while the remaining financial assets and liabilities are classified under level 3.

14. MATURITY ANALYSIS OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The table below shows an analysis of assets and liability according to when they are expected to be recovered or settled respectively:
